

IMPORTANT NOTIFICATION TO ALL CERT BUSINESSES – JULY 10, 2024:

If you received an email in the past two days, asking you to **verify or update your CERT information**, **DO NOT OPEN THE LINK or RESPOND!** That email is NOT from the CERT Program or any of our partners/affiliates/Strong & Starlike Consulting.

We received notification from several vendors that CERT businesses have recently been targeted with a “phishing email campaign.” A phishing email is a fraudulent email that appears to be from a legitimate source (in this case the City of St. Paul), but it is actually an attempt to steal sensitive information, financial data, passwords, or to spread a virus.

If you have any questions, please reach out to Jef Yang with the CERT Program at: 651-266-8968 or jef.yang@ci.stpaul.mn.us.
